ADVANCE MISSISSIPPI STATEMENT ON SOLADIGM PLANT

JACKSON – Today, Advance Mississippi Chairman Glenn McCullough, Jr. released the following statement on the Soladigm manufacturing plant to be built in Olive Branch.

“Advance Mississippi commends Soladigm for making the smart decision to build their manufacturing facility in Mississippi. This announcement is a welcome addition to the growing number of green technology jobs in Mississippi. Our state’s energy industry is growing to include state of the art companies that specialize in renewable energy and energy efficiency, and hopefully we will see this industry continue to expand.

“Advance Mississippi's commitment to sound energy policy includes the wise use of energy. Soladigm's patented dynamic glass technology enables energy efficiency through state of the art light allocation creating a more productive work environment with wise energy use that will benefit companies, employees and the environment.”

###

Advance Mississippi’s mission is to advocate for sensible energy policy that will fuel economic opportunity in Mississippi, and educate policy makers, business and community leaders, and the general public about superior energy policies that will foster economic growth.
